Background:- I am a skilled IT professional with over 14 years of experience, including five years specializing as a Cloud DevOps Engineer focused on AWS, Azure, GCP, and on-premises Tanzu Kubernetes Grid (TKG). As a [Kubestronaut](#), I have successfully designed and implemented efficient, reliable DevOps pipelines, automating deployment processes and enhancing operational efficiency. I am committed to using my expertise to drive stability and innovation in my next role

Work Experience

DevOps Engineer | Addis Telco Engineering 0G/08/2023 – Now

- © Design, implement, and manage CI/CD pipelines within Tanzu Kubernetes Grid (TKG) environments to ensure smooth and efficient code integration and deployment.
- © Automate infrastructure provisioning, scaling, and management within TKG using Terraform.
- © Monitor system performance in TKG clusters, identify bottlenecks, and implement solutions to ensure optimal uptime and performance.

Cloud/DevOps Engineer | Gebeya 10/01/2021-0G/08/2023

- © Design, implement, and manage CI/CD pipelines in cloud environments (AWS and Azure) to ensure smooth and efficient code integration and deployment.
- © Automated infrastructure provisioning, scaling, and management in AWS and Azure using Terraform and CloudFormation.
- © Monitor system performance in AWS and Azure environments, identify bottlenecks, and implement solutions to ensure optimal uptime and performance

System Support Engineer | Shop and Deliver 01/04/2016 01/07/2021

- © Design, implement, and manage CI/CD pipelines in cloud environments (AWS and Azure) to ensure smooth and efficient code integration and deployment.
 - © Provide system support by automating infrastructure provisioning, scaling, and management in AWS and Azure using Terraform and CloudFormation.
 - © Monitor system performance in AWS and Azure environments, identify bottlenecks, and implement solutions to ensure optimal uptime and performance.
-

Network Specialist IT support Specialist System Administrator 2010-1016 in different Companies

SKILLS

- CI/CD • Docker • Jenkins • Ansible • Terraform • Kubernetes • Cloud Security • Cloud Migration • Python
 - Prometheus • Grafana • Stackdriver
-

Projects: -

- [Building DevOps Project](#)
- [Azure Terraform full company resource](#)
- [Arm Template](#)
- [Clone Netflix fully CI/CD Project](#)

Certification: -

- [All K8 Certification member of Kubestronaut](#)
- [Azure Solution Architect Expert](#)
- I have all Azure and AWS solution Architect Terraform Certi
